SUBJECT: Soviet Destroyer in the Gulf of DATE DISTR. 21 May 1953 NO. OF PAGES 1 REQUIREMENT NO. RD REFERENCES 25X This is UNEVALUATED Information THE SOURCE EVALUATIONS IN THIS REPORT ARE DEFINITIVE. THE APPRAISAL OF CONTENT IS TRIVATIVE. (FOR RY SEE REVISE) 1. A Soviet warship leaving Roger Wick (N 59-20, E 24-00) was sighted at about 1900 hours on 30 January 1973, ship was on her way from Abo (N 60-28, E 22-22) to Helsinki. The warship. at a distance of about five or six sea miles. It was between 100 and 110 meters long, and had a raked bow, and two guns, one above the other, which were either behind shields or in enclosed turrets on her foredeck. The mast was a low, very squat funnel with smoke hood. There was a shorter mast on the forward section of her long fastail. There were several unidentified structures between the short mizzen mast and the aft guns, which were superimposed, and fitted with protective shields or were enclosed in turreta. As were those on the foredeck. It had a nlumb sterm. The vessel could not be approached more closely, as ceeding along the outermost limits of the swept channel. 2. The destroyer made a straight run toward the northwest coast of Nargoe Island (N 59-22, E 24-30), opening fire with her two forward guns. Shorte targets were fired upon, no targets or other objects at sea and no splashes on the surface of the water. After firing about eleven consecutive salvos, during which dark gray powder smoke from the destroyer's guns but no shell bursts on the island, the destroyer turned sway toward the Baltic coast. 1			SECRET/CONTROL - U. S. OFF SECURITY INFORMATION	TCIALS ONLY		25X1
PACE ACQUIRED REQUIREMENT NO. RD REFERENCES 25X This is UNEVALUATED Information THE SOURCE EVALUATIONS IN THIS REPORT ARE DEFINITIVE. THE APPRAISAL OF CONTROL STRUCTURE. (FOR REY SE REVERS) 1. A Soviet warship leaving Roger Wiek (N 59-20, E 24-00) was sighted at about 1,300 hours on 30 January 1953, ship was on her way from Abo (N 60-26, E 22-22) to Helsinki. The wership. at a distance of about five or give as a miles. It was between 100 and 110 meters long, and had a raked bow, and two guns, one above the other, which were either behind shields or in enclosed turrets on her foredeck. The mast was behind her low bridge structure; git of this mast was a low, very squar tunnel with smoke hood. There was a shorter mast on the forward section of her long fautail. There were several unidentified structures between the short mizzen mast and the aft guns, which were superimposed and fitted with protective shields or were enclosed in turrets. as were those on the foredeck. It had a plumb stern. The vessel could not be approached more closely, as ship was proceeding along the outermost limits of the swept channel. 2. The destroyer made a straight run toward the northwest coast of Nargoe Island (N 59-32. E.24-30), opening fire with her two forward guns, mo targets or other objects at sea and no splashes on the surface of the water. After firing about eleven consecutive salvos, during which dark gray powder smoke from the destroyer's guns but no shell bursts on the island, the destroyer turned away toward the Baltic coast. 1. Comment. This report indicates that the vessel was a GREVENYT-class destroyer. 2. Comment. This shorter mast is probably a staff located on the after section of the fantail.
